

WORLD WAR I TRAVELING TRUNK

*The museum has put together a traveling exhibit focused on World War I. Uniforms and equipment such as a gas mask and helmet, together with period photos help students better visualize what life was like for the common soldier during the Great War.

*New to the museum is a traveling exhibit focused on WWII. This exhibit includes period magazines, war ration books, uniforms, and equipment such as a helmet, belt, and canteen. Also included in this exhibit is a vintage 1940's era silent newsreel that can be viewed by your class on the museum's own 16mm film projector.

Thank you for taking the time to consider using the Wood County Historical Center as your educational resource center. If you have any questions please contact me, Michael McMaster, at the museum, at the numbers provided below.
